Teacher Training 2020: Storytelling

Course dates	Tuition fees
02.08.2020 – 08.08.2020	GBP 470

***European Union nationals can apply for funding for training courses through the Erasmus+ programme.**

Who is the course suitable for?

Non-native teachers engaged in planning and/or delivering ELT programmes
Participants should have a minimum language level corresponding to B2 in the Common European Framework

Course aims

To extend your methodology and practical teaching techniques and skills for using storytelling in the classroom
To examine and reflect on your own approaches and attitudes to teaching and learning
To develop an awareness of how storytelling can contribute to learning and reflect on your own practise and that of others
To discuss and share ideas, problems, methods and techniques with peers from other parts of the world
To begin to develop a storybank and share traditions with others from different countries and cultures
To adapt and develop your storybank to make it relevant to your own teaching context
To develop techniques for using storytelling in the classroom to increase learner engagement and motivation

Course programme

Preparation

All participants are required to fill in a pre-course questionnaire. It is very important that this is returned at the earliest opportunity as the course is pre-planned based on this. The course content is outlined and discussed on the first afternoon, and is then adapted as appropriate. Participants should bring some examples of stories from their own countries.

Objectives

Participants will experience a variety of teaching techniques, materials, devices and procedures designed to help with using storytelling to aid the acquisition of language. There is a focus on practical teaching skills that participants will evaluate for effectiveness and also discuss ways of adapting these to fit in with different teaching contexts. The process of reflecting on your own classroom experience and being exposed to a wide range of storytelling techniques, as both teachers and learners, will help you to be a more knowledgeable and creative classroom practitioner.
